- Vocational Rehabilitation
- Other _____

Donations that make a Difference!

The Canadian Physiotherapy Association encourages members to consider voluntary donations to four funds that support various aspects of physiotherapy research, practice, and advocacy. Donations can be made to all four funds using your membership renewal or new membership application form.

WCPT: CPA is a proud member of the World Confederation for Physical Therapy, which supports and represents our profession internationally. A contribution of as little as \$2 helps CPA maintain this important connection on behalf of the profession by supporting our ongoing work with WCPT. For more information on donating to the WCPT, please contact Canadian Physiotherapy Association, 416-932-1888 or 1-800-387-8679 or information@physiotherapy.ca

MTSC CPA's Manual Therapy Steering Committee (MTSC) works on your behalf to track and respond to issues related to the practice of manual therapy in Canada. With representation from the CPA Board of Directors, the Orthopaedic and Sports Divisions, the Canadian Academy of Manipulative Therapists, the Canadian University Physiotherapy Academic Council, and the Canadian Alliance of Physiotherapy Regulators, MTSC oversees the planning and implementation of strategic initiatives related to manual therapy and manipulation. These initiatives include manual therapy education and research, environmental scanning, and communication with members of all represented organizations. MTSC is funded primarily through member donations and is grateful for your continued support. For more information, contact Carol Miller, Project Manager, CPA Practice & Policy Department, (613) 564-5454, ext. 224 or cmiller@physiotherapy.ca

ADVOCACY FUND: Perhaps the greatest challenge facing your profession and your association in the coming years is that of ensuring the voice of physiotherapy is heard and respected amidst the many health care debates and decisions currently unfolding. CPA advocates strenuously on behalf of its members at every opportunity; however, with limited resources and multiple priorities, we have been unable to undertake all actions which are needed, if we are truly to be heard in a crowded field. In 2004, CPA introduced the Advocacy Fund as a means to support concrete advocacy activities such as provision of election resources for members, participation in Health Human Resource planning, and involvement in Health Action Lobby (HEAL) activities. We invite you to contribute to the Advocacy Fund in 2007, to ensure continued support for these critically important initiatives.

Please note that because CPA is not a registered charity, no official tax receipt can be issued for donations to the WCPT, MTSC, or Advocacy Fund. However, your donation will be indicated on your receipt of payment.

The **Physiotherapy Foundation of Canada** (PFC) was established in 1982 by physiotherapists who recognized the critical importance of evidence based research to the development of the profession of physiotherapy. Since then, PFC has awarded over \$1 million to researchers working on a wide range of topics that ultimately benefit the profession through better treatment methods. Our goals are to provide seed funding for developmental projects in physiotherapy research; to award scholarships and bursaries that build research capacity; to recognize research accomplishments; and to develop effective partnerships and strategic alliances. PFC needs your help now more than ever as we build the evidence-based research that supports the value of our profession.

Make PFC one of your donation priorities this year! Please consider including a donation of \$25, \$50, \$100 or more on your CPA membership form, or contact PFC to participate in our new monthly donor program. Donations can be made by cheque or credit card. Charitable tax receipts will be issued for all donations over \$20.

For more information on donating to the Foundation, please contact:
